

Installation Instructions

F759, F782, F758, F757, F781 Wall adapters

IMPORTANT

Save these instructions for reference

See Roomscapes product guide for correct configuration and safety instructions for Roomscapes set-up.

⚠ WARNING

- ▲ Wall adapters must be correctly mounted before use. It is the customer's responsibility to ensure that the Wall adapter is securely attached.

Installation

A competent carpenter or maintenance person should install your wall adapter. Use fasteners to suit the wall construction.

Wall adapters must be screwed to the wall with the bottom end on the floor. If there is a skirting board, it will be necessary to add a filler strip of the same thickness behind the adapter. Hardware and filler strip are not provided.

The top dovetail on the adapter should line up with the top ring on the post.

Filler strip
(only necessary with
skirting board)
