## Maintenance

Periodically inspect for cracks, breaks, loose parts, missing parts, and/or malfunctions. Remove the product from service if any condition develops that might make operation unsafe.

With hard use, your Mini hollow blocks may become roughened. To refinish, lightly sand the entire surface. Any remaining finish need not be removed. Then, following the manufacturer's instructions, apply one or two coats of child-safe varnish, using a brand you trust.

## Cleaning

Clean your blocks using a stiff brush and a minimum of soap and water. Too much water may cause warping or rotting. Let the blocks dry thoroughly before play begins.
