Recommended use

PlayFrame mats are designed primarily for use with the PlayFrame. As high-quality, connectable, safety-tested mats, they are ideal for use wherever children need protection from falls up to 1.5 meters in height. PlayFrame mats have been tested to EN 1177 and EN 71-3.

V806 6 PlayFrame mats

V808 8 PlayFrame mats

V814 14 PlayFrame mats

Make sure you have all the mats from your set. If any mats are damaged or missing, call customer service at 0800 387 457.

WARNING

- ▲ Failure to follow this warning could result in serious injury or death.
- ▲ This product is intended for use by children of immature judgement. Therefore, supervision is required at all times.
- ▲ These mats are rated for fall heights of up to 1.5 metres. Do not use to protect against falls from heights in excess of 1.5 metres.

CAUTION

- ▲ This product may be used indoors or outdoors but must be stored out of the weather and direct sunlight.
- ▲ These mats offer the best protection when connected together as intended using a hook and loop connection system.

Assembly

Lay the mats down on the floor next to each other, ensuring that the loops on the underside of the mats stick to the hooks on the protruding tabs.

If using with the PlayFrame, we recommend laying the mats down first with no gaps between them, and then erecting the PlayFrame on top of the mats. (Mats other than PlayFrame mats may not be firm enough to allow this.) Ensure that the mats extend at least 1 metre all around the PlayFrame.

Maintenance

Visually inspect your mats periodically, checking for tears, loose seams or other damage that could affect the performance of the mats. Remove the product from service if any condition develops which might make operation unsafe.

Cleaning

You can wash your mats with warm water and a mild household detergent.

Construction

The mats are made of closed-cell polyethylene foam and covered with a durable, high-solid PU cover.
