N931, N932 Wall Cupboard Mirrors

IMPORTANT

Save these instructions for reference

Recommended use

This mirror is an optional accessory for Display Cupboards and is offered in two sizes: 94 cm and 124 cm.

Attaching the mirror behind the display area directs ambient light towards objects placed for display and enables children to make discoveries with reflection and light.

Installation instructions

1. Place mirror face down in the display area with the hook and loop strip up and towards you.
2. Without separating the hook and loop, peel the paper backing from the loop strip to expose the adhesive.
3. Push the mirror back, then rotate up 90° as shown. Press firmly along its top edge to attach the adhesive to the wooden back of the display area.

The hook and loop enables the mirror to be removed and re-attached as required.

Construction

Mirrors are made from 3 mm acrylic with hook and loop fastener strips.

Cleaning

Dust with a soft, damp cloth or chamois. Wash with washing-up liquid and plenty of lukewarm water. Use care in cleaning mirrors to avoid surface abrasion.

User modifications

We recognise that some users might benefit from modifications made in the field. However, we cannot be responsible for modifications made by customers to our products, without our supervision, testing or evaluation.

Ordering parts

To order replacement parts, contact customer service with a description of the part(s) needed and the ID code from the product.

Use only replacement parts supplied by Community Playthings. If your shipment is incomplete, please call customer service.

All our packaging is recyclable (cardboard and LDPE).

Please recycle in accordance with local guidelines.
